

To: Mr. Claus Muehlfeit

Muzzano, 4th of February 2016

Owner of this Set of Tom Stewart Flanged Stainless model of 1931

The set came from the USA and it has been fully restored from myself in my workshop with great care.

It has been re-shafted with new Hickory wooden shaft produced in the USA by Mike Just at Louisville Golf.

The set of heads were in pristine conditions and presented very little use.

The shafts have received 30 layers of natural shellac using the old French Polish technic.

Repairing old clubs is an art gone missing. Bringing back to playing condition such a great set was a pleasure and see them out on the golf course it is a dream come true.

Playing the old game of golf with historical Hickory Clubs is a privilege and I do wish you great fun with them and a lot of good moments with your hickory friends.

Paolo Quirici

Club Fitter & Passionate hickory golfer

*Hickory World Champion 2013, US Professional Champion 2013 and 2014
